

His Excellency Mr President Joko Widodo  
President of Republic of Indonesia  
Istana Merdeka  
Jakarta Pusat 10110, Indonesia

Date: London, 16<sup>th</sup> September 2022

Subject: Suggestion of ideas for the improvement and balance of the evolving international affairs.

Dear His Excellency Mr President Joko Widodo,  
I kindly hope that this letter finds you well.

The World Peace Alliance is an international initiative that aims to contribute with potential solutions to world problems, for a more connected, organised, and simplified world.

We would like to kindly suggest to Your Excellency, as the host of the G20 2022, the following ideas that we envision that could improve the international landscape, and these are to:

- 1- Enhancing the Parliament 20 (P20) - for better coordination, transparency(SAI20) and dialogue;
- 2- Creating a Space 20 (S20) - for fair public and private space related laws and organisation;
- 3- Aligning G20 initiatives as a momentum for a possible UN modern adjustment;
- 4- Helping the UN in making resource security a subject of the UN security council;
- 5- Helping the UN general assembly to work progressively with an inspired P20 model.
- 6- Helping to amplify worldwide the sphere of fairness of the International Criminal court.

There is a current need, more than ever, to work on the impossible to cultivate tolerance, fairness and understanding. Disputes of resources and land still need to be better addressed with international law, and all countries can grow more and be better balanced if in friendship, fairness and transparency they work together.

Kindest regards  
Antonio Roque
